Harbour Report

Overview

The harbour was founded in 1850 and has grown steadily ever since. Its construction took almost twenty years and involved hundreds of local workers from the surrounding villages.

Today the harbour serves fishermen, ferries and a growing number of sailing boats during the summer months.

Facilities

- Lighthouse on the northern cliff
- Fish market at the old pier

Budget

Costs in detail

The renovation of the pier is expected to cost 4.2 million euros, most of which is covered by regional funds.

Maintenance is planned every five years and is financed by mooring fees paid by the boat owners.
